

Goals

Wildlife Conservation Advocacy Southwest

- 1. Develop an educational program explaining the importance of native non-game species.***
- 2. Provide service through volunteer work with other groups and organizations.***
- 3. Network to change and update Chapter 17 — Game and Fish and Outdoor Recreation including:***
 - Require a New Mexico hunting license for all hunting.***
 - Native species classified as non-game species and unprotected furbearers must be included in New Mexico Statutes.***
 - Mandatory harvest reporting to the New Mexico Department of Game and Fish required for all native species.***
 - Bag Limits, seasonal restrictions, and game management unit specifications must be established for all native species based on current wildlife management science.***
 - Modify the exceptions in the general rules in NM hunting regulations whereby the rules apply to all game, native non-game, and native furbearer species.***
